ANALYZE / BUILD / IMPROVE

PROFESSIONAL SUMMARY

Detail-oriented and tech-savvy customer expert operator with a strong foundation in computer science, statistics, and mathematics. Proven experience in digital operations, technical troubleshooting, workflow optimization, and user-centric problem-solving. Adept at translating complex technical issues into clear, actionable solutions for users, managing cross-functional communication, and utilizing data analytics to improve service delivery and customer satisfaction.

KEY STRENGTHS

- ✓ Analytical Thinking & Problem Solving
- ✓ Attention to Detail & Quality Assurance
- ✓ Effective Communication & Team Leadership
- ✓ Time Management & Organization
- ✓ Adaptability & Continuous Learning

Let's build something great.

CORE COMPETENCIES & TECHNICAL SKILLS

Customer Operations & Support
- Omnichannel Support • Technical Troubleshooting • Escalation Management
- SLA Compliance • Client Onboarding • QA • Root Cause Analysis
- UX Optimization

Computer Systems & Networking
- Windows & Linux • Network Configuration (Cisco Packet Tracer)
- System Administration • Hardware & Software Troubleshooting
- Cross-Device Connectivity

Software & Web Technologies
- HTML5 • CSS3 • JavaScript • Node.js • Express.js
- RESTful APIs • Git/GitHub • Cloud Deployment (Render)
- Visual Studio Code

Data Analysis & Reporting
- Python • R Programming • Statistical Modeling
- Data Cleaning & Validation • Microsoft Excel / Google Sheets
- (Advanced Formulas, Pivot Tables, Data Visualization)

Digital & Productivity Tools
- Ticketing & Workflow Systems • Microsoft Office Suite
- Google Workspace • AI Productivity & Automation Tools
- Command-Line Utilities (FFmpeg, CLI workflows)

KEY ACHIEVEMENTS & VALUE

- Improved service delivery and user satisfaction through process optimization.
- Built and deployed web applications with Node.js, Express.js and REST APIs.
- Led a 9-member research team in statistical credit risk modeling and survival analysis.
- Managed YouTube content operations, growing engagement through data-driven strategies.
- Maintained 98%+ quality approval rates in high-volume digital operations.

RELEVANT EXPERIENCE

Digital Operations & Quality Assurance Specialist
Remote (RWS, Clickworker, WritersHub) — 2025 – Present
- Executed high-volume digital operations, data validation and QA.
- Analyzed user queries and project briefs for accurate solutions.
- Performed error checking and AI data training assessments.
- Maintained clear communication and achieved 98%+ quality ratings.

Full-Stack & Front-End Web Developer
Nairobi, Kenya — Oct 2025 – Present
- Designed and developed customer-facing layouts for Edensafi e-commerce.
- Built responsive web pages for clients (e.g., Christine Wacera).
- Developed a full-stack web app on Render (Node.js, Express.js, REST APIs).
- Resolved front-end bugs and cross-browser issues.

Project Team Lead — Quantitative Research & Operations
Multimedia University of Kenya — Sep 2026 – Present
- Led a 9-member team in statistical credit risk modeling.
- Coordinated task delegation and quality reviews.
- Liaised with faculty supervisors and resolved workflow bottlenecks.
- Used Python and R for data analysis and visual reports.

Digital Content & Operations Coordinator
InnerShift Media (YouTube) — Dec 2025 – Present
- Managed content workflow, scripting and metadata.
- Analyzed viewer metrics and feedback to improve performance.

EDUCATION

Bachelor of Science in Mathematics and Computer Science (Statistics & Operations Focus)
Multimedia University of Kenya — Nairobi, Kenya — 2023 – Present (Fourth Year)
- **Relevant Coursework:** Operating Systems, Systems Programming, Computer Networks, Mobile App Development, Database Systems, Simulation and Modeling, Regression Analysis, Time Series Analysis.

PROJECTS

EdenSafi E-commerce Platform
- Responsive web interface (HTML, CSS, JS).
- Product categories & customer experience.

Statistical Classification of Kenyan Coffee Beans
- R/SPSS, EDA, ANOVA, Kruskal-Wallis, PCA.
- 25-page report (Dr. Kinyanjui sample).
